Providing industrial solutions for your business

Our industrial branches are your one-stop shop solution for all your industrial needs. As a market leading electrical distributor, we can also provide a comprehensive industrial control and electrical supplies offering, and a developing range of MRO (Maintenance, Repair and Operations).

Range and availability

Working primarily with market leading and established supplier partners, we offer:

- ✓ Off-the-shelf availability of stock – get the products you need, exactly when you want them
- ✓ Next day delivery to your site or collection from one of our branches nationwide
- ✓ Authorised UK stockist

Experience and advice

We understand you demand a high standard of service, which is why when you contact an Industrial branch you will be speaking directly to a team with extensive industry and product know-how.

With direct links to manufacturers offering immediate assistance for the more complex problems you may encounter, you can rest assured we will be able to find you all the advice and technical information you need.

- ✓ Specialised knowledge of industrial products
- ✓ Years of experience to offer advice and solutions
- ✓ Training and accreditation from the world's leading manufacturers

Our services

Energy Surveys – supporting your energy needs including motors, lighting and power distribution

Safety Training – comprehensive machine safety training courses and site surveys
